

COUGH & COLD

Section 10

Finding a cough or cold remedy that will not elevate blood sugar levels can be a special challenge for people with diabetes. The following items address that need by offering over the counter medications that do not contain sugar, sorbitol, alcohol or dyes.

Clear Cough

Developed to effectively treat coughs associated with the common cold without the ingredients commonly restricted from patients with diabetes, high blood pressure, thyroid problems, heart disease, allergies or sensitivities to alcohol or dyes.

Original Item # 3432945

Senior Item # 3497779

NUTRITIONAL SUPPLEMENTS

Section 11

The special nutritional needs of people with diabetes have been addressed by developing nutritional supplements in both tablet and food formulations. Whether you chose to take a vitamin and mineral tablet each day or prefer to eat or drink a special snack, the following products will benefit your dietary needs.

alpha betic Multi Vitamin

A multi-vitamin that adds the power of German Alpha Lipoic Acid to chromium, magnesium, and B-vitamins among other important vitamins and minerals. Alpha Lipoic Acid is an antioxidant that improves blood glucose levels, prevents free radical damage and eases pain associated with neuropathy. Item # 4181442

Choice DM

The only nutritionally complete bar designed specifically for people with diabetes.
