

METERS, STRIPS, & SOLUTIONS

Section 1

Clinical trials have determined that "tight control" is an important way to delay the onset and dramatically slow the progression of complications from diabetes. The more normal your blood glucose level, the lower your risk of complications. Regular testing is important because blood glucose levels change throughout the day as you eat, exercise and take diabetes medications.

BAYER BLOOD GLUCOSE MONITORING SYSTEMS

Convenience and ease of use have made the Bayer blood glucose monitors popular for years. Capillary action draws the right amount of blood each time.

Glucometer DEX

- Uses test cartridge with 10 test sensors rather than individual strips
 - Able to download data to personal computer
 - 100 value memory
- Item # 4009510

Glucometer Elite

- Rated #1 by Consumer Reports
 - Small portable size
 - 20 value memory
- Item # 1315787

Glucometer Elite XL

- Download memory for advanced data management
 - 120 - test memory with time and date
 - Year 2000 compliance
- Item # 1315787

Test Strips

- Glucofilm 50's**
Item # 3518412
- Glucofilm 100's**
Item # 3168259
- Glucometer DEX 50's**
Item # 4009536
- Glucometer DEX 100's**
Item # 4175774
- Glucometer Elite 25's**
Item # 3435369
- Glucometer Elite 50's**
Item # 3663291
- Glucometer Elite 100's**
Item # 4142451
- Ketostix Reagent 20's**
Item # 3614542

Control Solution

- Glucometer Elite Normal**
Item # 1353325
- Glucometer DEX Normal**
Item # 4009551

CHRONIMED BLOOD GLUCOSE MONITORING SYSTEMS

Innovation and experience bring you blood glucose monitors from Chronimed. Large displays make testing and reading results easy.

DiaScreen Reagent Strips for Urinalysis

- High quality dip-and-read test strips
- All tests are read between 30 and 120 seconds
- Now with Specific Gravity and Leukocytes

- Diascreen 2KG 100's** Item # 4167201
- Diascreen 1K 100's** Item # 4167227
- Diascreen 1K 50's** Item # 4179214
- Diascreen 1G 100's** Item # 4167235

Select GT

- Small hand-held device fits easily into a purse or coat pocket and can therefore be used in virtually all situations
 - Blood can be applied to test strip when it is inside or outside the meter
 - Large, easy to read display
 - 100 test memory
 - Small blood sample
 - No timing, wiping or blotting
- Item # 4089223 - Kit
Item # 4089249 - Meter

Assure

- Data Management system
 - Biosensor technology virtually eliminates the need for cleaning the meter
 - 180 test memory with date and time
 - Large touch-screen display
- Item # 4155529 - Kit
Item # 4155511 - Meter

Control Solution

- Assure Normal**
Item # 4155560

- Select GT Normal**
Item # 4089280

- Select GT Normal/High**
Item # 4089306

Test Strips

- Assure 50's** Item # 4155545
- Assure 100's** Item # 4155537
- Select GT 50's** Item # 4089264
